Price rise of exportable commodities due to inffation

1838. SHRI SARADA MOHANTY:
SHRI CHIMANBHAI MEHTA:

Will the Minister of COMMERCE be pleaed to state :

(a) whether it is a fact that the prices of exportable commodities have increased due to inflation.

(b) whether it is also a fact that high rate of excise duty is incompetative for exportable commodities;

(c) whether Government propose to introduce International Price Reimbursement Scheme; and

(d) if so, what are the reasons for decline in exports ?

THE MINISTER OF COMMERCE (SHRI PRANAB MUKHERJEE): (a) Inflation by definition, is an increase in the general price level, including the price level, of commodities meant for exports. However, its effect varies from commodity to commodity.

(b) Excise duty should not affect the price of goods to be exported as goods can be exported under bond without payment of excise duty. Goods can be exported on payment of duty and such duty can be claimed back as rebate. Besides, excise rules also provide for refunding excise duty paid on inputs used in the manufacture of export products. Under the Modvat Scheme also, credit of excise duty paid on the inputs is allowed on export of the finished products.

(c) International Price Reimbursement Scheme (IPRS) which envisaged providing Iron and Steel at International prices to the exporters of engineering goods, has been withdrawn with effect ifrom 1-4-94. However, facility of duty free import of inputs is available under the Advance Licensing Scheme to the engineering goods exporters.
